Wendi Lallier, Maple Leaf Farms

Trina Hoy, Warsaw/Kosciusko County Chamber of Commerce

Kosciusko Leadership Academy

2010-2011

Kosciusko County is home to Indiana's 10<sup>th</sup> largest Hispanic/Latino population. Our white paper team felt it was important to reach out to this segment of our population. Specifically we felt there was a need for information – information about vital health and human service providers that was readily available in Spanish. Our team decided to partner with the Warsaw/Kosciusko County Chamber of Commerce to create a directory of health and human service providers in Spanish. The Spanish directory is now available and ready for distribution.

## **Communication**

Communication is one of the biggest barriers to any outreach to the Hispanic/Latino population. Brittany Martin, Human Resources Specialist from Creighton Brothers, faces issues of communication everyday in HR at a company with a large Hispanic/Latino workforce.

Brittany shares some of her experiences:

“One major challenge from my experience in Human Resources and working with a large Hispanic population is communication - how hard it is to communicate information with an employee who does not understand the language; the frustration in getting involvement from the Hispanic population in the community; the hurdles jumped to gain their trust with their information or information given to them.

“Communication I would say has to be one of the biggest challenges I face on a daily basis. Many Hispanics that I deal with know very little English or none at all. When this happens they typically bring in a child translator ranging from ages five and up. This is a very difficult task to tackle when discussing personal issues, insurance, 401k, etc. There is just too much detail and information for the child to try and understand to be able to

translate correctly to their parents. The employees at times can leave confused and still unsure about answers when they leave.

“We have had difficulty as a company in the past and some in the present with getting Hispanics to sign up to participate with insurance or 401k. I sat down with a young lady one day and she told me a story how in Mexico they would put money away in a 401k or elsewhere and that money was taken from them by the government. So they tend to not trust the government here in return. We have taken big strides at our company to have a trusted Hispanic translator in our 401k meetings to help employees understand the 401k and what a great opportunity this could be for them in the future. Also we have a trusted Hispanic translator to help explain the insurance enrollments to newly eligible employees, so they have a better understanding of why insurance is so important and why they should elect to have it.

“Also here with our company we have provided English classes to all Hispanics interested in learning how to communicate while speaking, reading, and writing. The class is actually taught by the translator we have here with the company. We have paid for him to go out to classes and learn this information and bring it back to the employees and teach them what he has learned. We actually have had lots of participation in the area and using someone they know we believed to be a big help. He understands the frustrations they go through when trying to learn the English language. We hope to continue with some of these sessions to help newly hired employees.

“As a company some things that we do to help get our employees involved in the community is every October the YMCA has a corporate challenge and our company enrolls. We send around sign up sheets to have employees participate if they are interested. Most of our employees participate in these events and it is a great way to get them out in the community to meet others and build relationships. We also as a company give out gift cards to Wal-mart and Marsh every Christmas and this helps the employees to get out in the community as well and communicate with others. This also helps for them to see what is in the community.”

Our white paper team wanted to reach across the communication barrier by creating a health care provider directory in Spanish and making the directory available to the Hispanic/Latino population of Kosciusko County.

## **Demographics**

The Hispanic population is an ever growing part of our community in Kosciusko County. According to the 2010 Census information on the website [PewHispanic.org](http://PewHispanic.org)<sup>1</sup>, Kosciusko County has the 10<sup>th</sup> largest Hispanic population in the state of Indiana. Also according to this site, the Non-Hispanic population of our county has decreased by 1,389 people from 2000 to 2010; however, the Hispanic population has actually increased by 1,912 people in this same timeframe. According to the United States Census bureau brief written by Karen R. Humes, Nicholas A. Jones, and Roberto R. Ramirez<sup>2</sup>, the growth in the U.S population from 2000 to 2010 can be attributed in large part to the growth in the Hispanic population. According to this report, in 2010 there were nearly 50.5 million Hispanics in the United States, making up 16% of the total

population. The Hispanic population grew by 43% from 2000-2010, where the non-Hispanic groups increased at very slow rates, only 5%. Indiana ranked 21 out of 50 states and the District of Columbia for Hispanic or Latino origin for the 2008 population.

The Hispanic population in Kosciusko County made up 7.3% of the total population in the county. The population in Kosciusko County increased by 4.5% from 2000-2010. On a state level, 5.5% of the state is made up of people of Hispanic or Latino origin. There are a total of 2,181 Hispanic students attending all of the schools in the county. The school system with the highest Hispanic attendance is the Warsaw Community School Corporation, with 15.3% of its student population made up of Hispanic children. That equates to 1,059 kids out of 6,903 students in the system, in grades K-12. The second highest Hispanic population is the Wawasee school corporation, with 225 Hispanic students out of 3,319 total students, or 6.8% of the student population, followed by Tippecanoe Valley, Whitko and Sacred Heart with 7.5%, 5.4% and 2% Hispanic students respectively.

Many Hispanic people in the county work in agriculture or the food industry. One company that employees people of Hispanic origin is Maple Leaf Farms, Inc. in Milford, Indiana. Approximately 49% of the employees at Maple Leaf Farms are Hispanic, making Maple Leaf one of the larger employers in the county for this demographic. Another major employer of this population is Creighton Brothers.

The Hispanic/Latino population is the largest minority group in Kosciusko County. Our white paper team felt it was extremely important to serve this significant portion of the county's population.

## **The Directories: Publication and Distribution**

The Chamber currently publishes a *Health & Wellness Directory*, which lists health and wellness providers in the county, and a county *Clubs & Organizations Directory*. We decided to get this information translated and published in Spanish

The goal of our white paper project is to get these documents in the hands of our target market, the Hispanic/Latino community in Kosciusko County. We will do this in a variety of ways; here is our marketing plan (see detailed plan, attached).

First we created a logo to brand our initiative, and translated the two initial documents. The documents were then linked to the Chamber's website, [wkchamber.com](http://wkchamber.com). We will print the documents and place copies in many locations where people go, including medical lobbies, major employer's H.R. offices, schools, restaurants, grocery stores, and churches.

We will then publish a press release locally as well as state-wide to spread the word that the Chamber has embraced the "En español" initiative by making their website more user-friendly to their growing Hispanic population and by distributing these guides in Spanish.

In the future, we hope to have more publications translated, printed, and distributed to our target market.

## **Conclusion**

Our white paper team felt there was a pressing need to reach out to the Hispanic/Latino community in our county. We decided to meet this need by translating and distributing a health care and a club and organization directory in Spanish to the Hispanic/Latino population. These guides will serve as resource for those in our community who may not have yet mastered the

English language. These directories will allow those individuals to have access to information about vital health care services available to them in our community.

In partnership with the  
Warsaw/Kosciusko County Chamber of Commerce

## Marketing Plan

1. Create a logo to brand the initiative
2. Translate Chamber's two social directories into Spanish
3. Printed Materials Distributed by:
  - Direct Mail
  - Churches
  - Mobile Home Parks
  - Mexican Restaurants
  - Grocery Stores
  - Library
  - Schools
  - Adult Learning Center
  - Kosciusko Literacy Services
  - Cardinal Services
  - Hospital/MedStat
  - Combined Community Services
  - Child and Family Health Services
  - Doctor's Offices
  - Creighton Brothers
  - Maple Leaf
  - H.R. Offices of Major Employers
4. Publicity:
  - Press Releases — Elkhart County/Kosciusko County
  - News Story — Times Union/The Papers
  - State Publications
  - Social Media
5. Translate More Publications into Spanish:
  - Safety Information
  - Relocation Information
  - Others
6. Host Translated Materials on Chamber Website: [www.wkchamber.com](http://www.wkchamber.com)

- Statistics
- Marketing & Distribution Plan

Something Fun!

## Cómo hacer un Margarita!

1 parte de tequila  
1 parte de jugo de limón fresco  
1 parte de triple sec  
sal gruesa Kosher  
limón para decorar  
salsa Tabasco  
hielo

Ponga hielo en una coctelera.

Medir una parte de tequila y echar en la coctelera.

Añadir una parte triple sec, que es un licor con sabor a naranja hecho de cáscara seca de naranjas del Caribe.

Añadir una parte de jugo de limón fresco.

Agitar enérgicamente.

Tomar una rodaja de limón y frotarlo en todo el borde del vaso. Asegúrese de ponerlo en el borde exterior del cristal - que es donde usted quiere que se pegue la sal.

Vierta un poco de sal gruesa en un plato, de vuelta al vaso con el borde que contiene el jugo de limón hacia abajo, coloque el vaso en el plato que contiene la sal y de vueltas al vaso para cubrir el borde con la sal. Llene los vasos con un poco de hielo y coloque la bebida de la coctelera en el vaso. Alternativamente, puede utilizar el azúcar en lugar de sal para el borde del vaso.

Adorne con una lima y rocié salsa Tabasco encima y a disfrutar!

# Personal Perspective

# Statistics

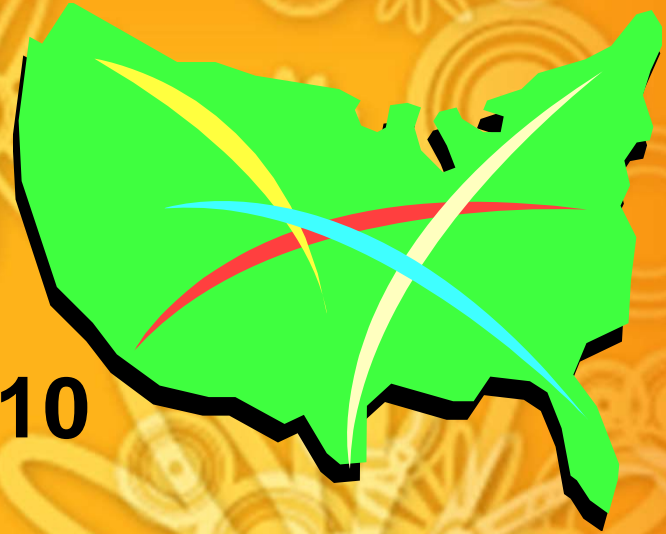

- **10<sup>th</sup> largest in state**
- **Non Hispanic decreasing**
- **Hispanic increased by 1,912**

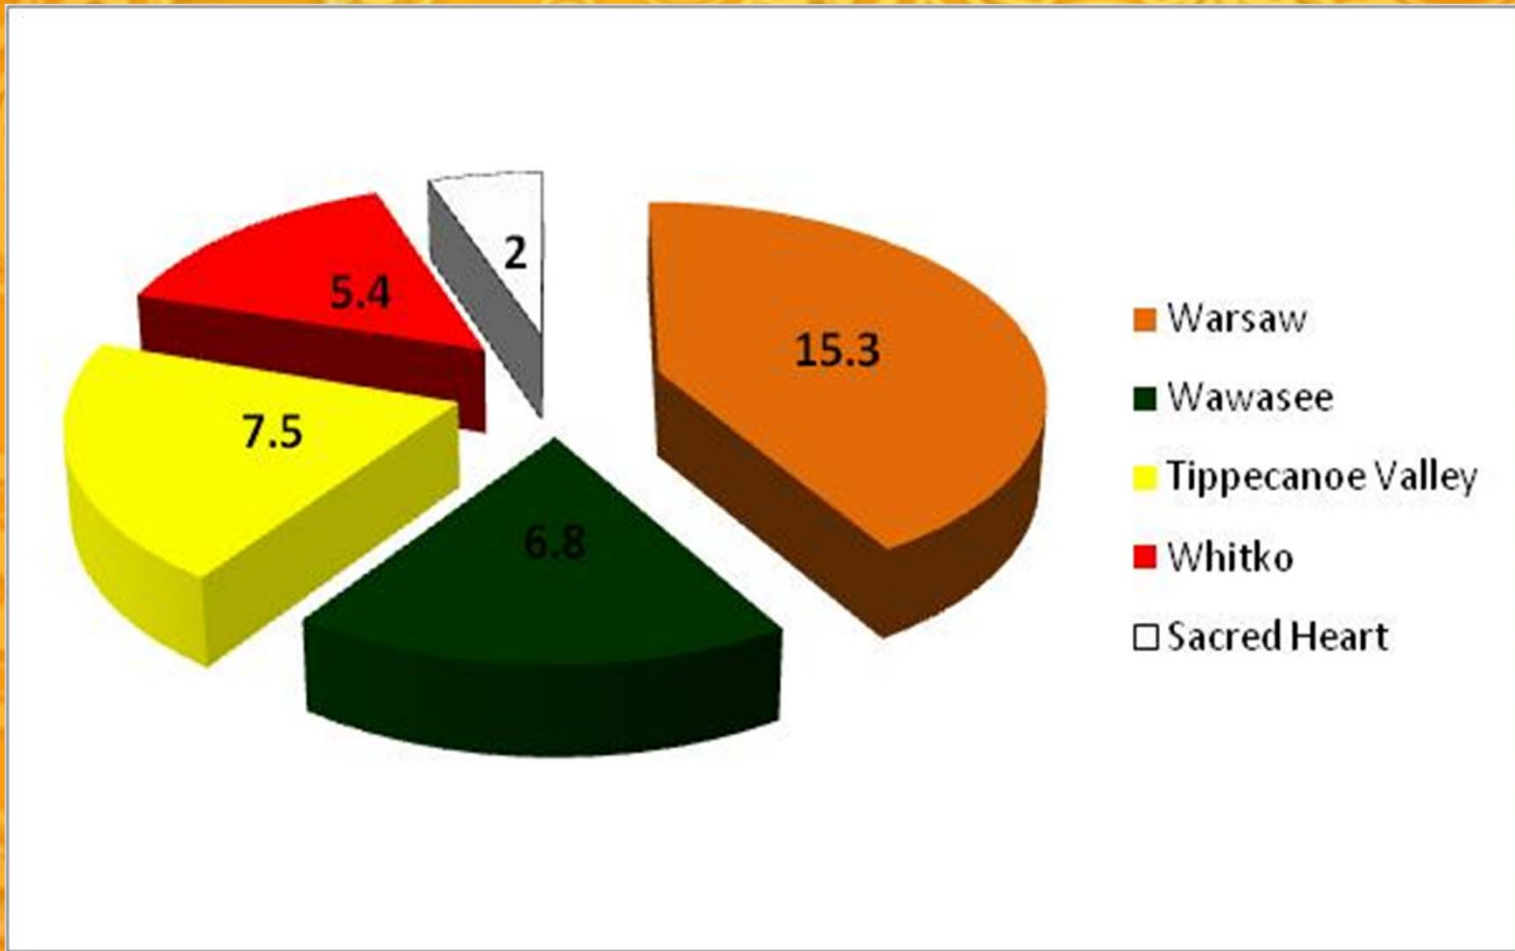

# Statistics

- **21<sup>st</sup> in U.S.**
- **50.5 million in U.S in 2010**
- **Growing faster than Non-Hispanic**

# Student Population

# Community

- Many work in Food Industry
- Maple Leaf Farms one of largest employers
